

COMPANY OVERVIEW

At LIZard Apparel, we work with organizations to implement branded Uniform/Apparel programs and Reward/Recognition programs that work! LIZard understands that corporate identity is important and having a corporate identity ensures your brand; much like Coca-Cola® is a brand. The consistency in color and quality of apparel/uniforms supports your brand just as having a professionally branded logo.

We also know the importance of retaining and attracting superb employees. We offer a Reward/Recognition program that takes all the work off the organization but keeps the employee's morale high, reduces turnover rates, while also attracting high caliber talent.

• Employee Uniform Programs:

On-line, On-demand ordering allows for tracking allotments, payroll deduction, custom branding of the garments and ships directly to each employee's home (eliminates distribution costs and resources)

• Reward and Recognition Programs:

This program offers a way for managers and peers to recognize a job well done and reward people "on-the-spot" with point programs and/or administrative ordering as needed. (no costly inventory needed)

• Web -2- Print Programs:

Order business cards, letter head, brochures and more on an as-needed basis without having to purchase in bulk. (eliminates obsolescence)

• Fundraising programs, Safety programs, and Wellness programs
