

PROJECT

Boonshoft Museum of Natural History
"Camp in a Box"

TARGET AUDIENCE

Children Nationwide
Ages: 6-7
Ages 8-12

SOLUTION PROVIDED

Because of COVID 19, Boonshoft was unable to open their doors to offer summer camps this year. They created "Camp in a box" programs that were not only fun, but educational. They offered many camps such as "Emerging Engineers, Mad Scientist, Backyard Astronomy, Boonshoft Time Machine and Chemistry.

Boonshoft reached out to LIZard as they knew we had logistic services to help them mail every package to each campers home.

Lizard also provided many of the items in the boxes such as embroidered lab coats for the chemists, insect nets, camp in a box stickers, notebooks, and many many more items to fill their boxes.

This project helped Boonshoft maintain enough revenue to keep the camps alive even during the pandemic. We were honored to be a part of this program with Boonshoft.
